

Second-User Instrument Datasheet

Ref: SU1051
Make: Gradient Lens
Model: Classic Super Slim
Serial No: H28882
Condition: Good – But well used
Availability: Available now
Warranty: 1 month - return to base for manufacturing
Offer Validity: Non-exclusive
Price: From £500 + VAT and Shipping (for endoscope only)
£750 + VAT and Shipping (for endoscope, mirror tube and halogen light source)

Overview and Key Features

Hawkeye® Classic Borescopes

Hawkeye Precision Borescopes are fine optical instruments used to see inside of things. Proudly made in the USA, Hawkeyes deliver a straight-ahead (0°) view or a 90° view with a Mirror Tube. Glass optical fibres carry light from the source to the tip of the scope. The image of the subject is relayed to the eyepiece by our patented endoGRINS® optical relay lenses, delivering bright, sharp, clear images.

At 2.40mm in diameter, the Borescope gives sharp, clear views of the microscopic holes in spray tips and nozzles. The Independent Focusing Ring allows for superb video inspection.

This Endoscope is perfect for the inspection of small bores for burrs, surface finish irregularities, and more. With a 10x intensity SuperNova and LightConcentrator you can expect high quality images.

Key Features

- ✓ E2 endoGRINS Optics for sharper more detailed images
- ✓ Mult-Coated objective Lens
- ✓ Pro SuperSlim FOV 40°, DOV 0° forward view
- ✓ Mirror Tube with 90°
- ✓ Classic Light post
- ✓ Mini Maglite® Flashlight
- ✓ 185mm x 2.4mm

Terms

Delivery: Insured delivery single UK site
Packing: Single-use packaging

Ongoing Support

Optimax IIM Ltd offer annual service and calibration contracts for optical inspection and measurement equipment, including second-user instruments. For more information or a quote, please call our Support line on 01858 436944 or email support@optimaxonline.com.

As the seller we make every reasonable effort to ensure the information on this datasheet is accurate at time of production. Optimax reserves the right to alter this information at any point during the sales process. The "As is" Clause under this disclaimer is hereby agreed, that the seller and purchaser agree that Purchaser is taking all used Equipment "As Is", with any and all latent and patent defects and that there is no warranty by Seller that the Equipment is fit for a particular purpose or application. The purchaser is strongly encouraged and acknowledges that the Equipment can be inspected in person and that it is not relying upon any photos, videos, representation, statement or other assertions made by Seller with respect to the Equipment's condition; but is relying upon its own knowledge regarding the Equipment and/or its own examination of the Equipment. Purchaser takes the Equipment under the express understanding that there are no express or implied warranties (other than those stated).
