

# Applications Engineer Trainee

## About us

We are the UK's leading independent metrology company, collaborating with industry leaders in automotive, aerospace, precision engineering, universities, and Formula One. As an ISO17025 UKAS-accredited lab, we deliver innovative solutions and value continuous learning. We are expanding from the UK to cover all of Europe—join us at this exciting time!

## Position:

Applications Engineer Trainee

## Location:

Market Harborough with occasional travel

## Are you:

- Great at problem solving and lateral thinking?
- Passionate about technology, with strong practical and IT skills?
- A clear communicator, able to explain your solution to colleagues and customers?

If yes, we'd love to meet you!

## Key Responsibilities:

- Work alongside our sales team to understand customer requirements
- Develop technical solutions to meet those requirements
- Become expert in our range of metrology equipment and software
- Run measurement solutions on customer parts and deliver reports
- Work with sales to close the order
- Deliver training for customers

## What We're Looking For:

- Able to rapidly assimilate customer requirements
- Engineering familiarity, including understanding engineering drawings
- Great communication skills, able to listen and to explain
- Practical, able to demonstrate equipment and solutions
- Team player, working alongside sales and user
- Excellent IT skills and a full driving licence.

### **What's In It For You?**

- Competitive salary
- Company bonus scheme
- Opportunities to progress in our growing business
- Vitality healthcare, pension and more
- Weekday hours

All are in accordance with our standard terms and after a qualifying period.

### **Education:**

Engineering or similar degree, completed apprenticeship or time-served engineer

We're excited to hear from you! Reach out with any questions before applying—let's shape the future of metrology together!

So you know, if your application stands out, we'll invite you to a Teams call where you can tell us about yourself and ask any questions. If we are still aligned, we'll invite you to a couple of interviews in Market Harborough where we will share more about the role and our products and let you demonstrate your technical skills. Once you start with us, you will go through our comprehensive onboarding and training package then given lots of support as you start your apps engineering career with us.

Optimax is an equal opportunity employer. We offer a welcoming and inclusive environment for one another, the diverse customers we serve, and the communities we call home. We do all of this with kindness, empathy and respect for each other. If you would like to discuss any accessibility requirements for the recruitment process or the role, please contact [sophie@optimaxonline.com](mailto:sophie@optimaxonline.com) and we will be happy to discuss.
